PERSONAL PROJECTS

Discord Food Bot

Javascript | NodeJS | Redis Client | Discord Client | REST API

A discord food bot that replies to the user based on specific food commands. Data is taken from TastyAPI. Used **Redis as cache source** which resulted in 8x – 10x performance. Deployed on Render cloud.

File Name Comparison Tool

Java | Spring Boot | HTML/CSS/Thymeleaf

A tool that takes in 2 folders containing files as inputs and returns filename difference with respect to both the folders.

Deployed on render cloud.

EXPERIENCE

DELL TECHNOLOGIES | Software Engineer – 1(FTE)

May 2023 - Present | Hyderabad, India

FullStack - C# DotNet | PL SQL | Microservices | Docker | Kubernetes GraphQL | Web API

- Worked on **migrating data** from **old legacy application DB** to **new stack microservice app DB**. **Migrated 24 tables and 8 audit tables worth 3.6 Lakhs of records.**
- **Creation, maintenance, debugging, test and deployment** of different **microservices** during new stack migration.
- Provided **training and guidance for new hires** and colleagues with respect to the application as POC.
- **DB Comparison Tool** - Created a tool as part of yearly goal to **compare responses of DB objects**(package bodies/specs) from different DB instances(prod/non prod) for **saving developer verification time with 50% effort reduced.**

DELL TECHNOLOGIES | Software Engineer - 1

(Contract Employee from TrueBlue Inc)

Jan 2021 - May 2023 | Hyderabad, India

FullStack - C# DotNet | Oracle SQL | RabbitMQ | Web API | Neo4j

- Was responsible for **managing and developing Dell Order Fulfillment service** and understanding the existing business of Client and providing business solutions using in-house application.
- Monitored **Production and E2E issues** between applications and worked on providing fixes for future releases.
- Drove production deployments once per 2 months as **Deployment POC.**
- Worked on DataAccessLayerAPI where users can interact with the dashboard which provides graph representation of event backbone(different microservices) with transactional data involving different services and events.

BERKADIA | Intern

Jan 2020 - Mar 2020 | Hyderabad, India

Worked on **Angular**(Front End) and **Node JS/Express JS**(Backend) and created custom web applications using **REST APIs.**

CERTIFICATIONS

- Business English Certificate (04/2017 - Present)
Vantage conducted by Cambridge University Press. One among 200+ students to earn B2 certification
